

Cabin Filter Spray Pump treats your cabin air filter with a pleasant, clean scent. A new cabin air filter treated with Cabin Filter Spray Pump helps to reduce odors entering your vehicle's passenger cabin.

FEATURES AND BENEFITS:

- Combats Unpleasant Odors
- Provides a Clean Fresh Scent
- Non-Flammable
- Non-Toxic

Directions: Remove the cover to expose the cabin air filter. Remove the used filter from the evaporator case or holder and discard. Apply 8-12 pumps of Cabin Filter Pump Spray evenly onto the inbound side of the new cabin air filter. Start vehicle and let it run at idle. Set fan control speed setting to high. Turn recirculation mode on. Let vehicle run for 5 minutes to allow fragrance to permeate the filter.
