

Professional Series Dot 3 Brake Fluid performs a variety of very important functions in the braking systems; it transmits the required power, minimizes corrosion, lubricates, controls proper seal swelling and operates over a wide temperature range.

Professional Series Dot 3 Brake Fluid features a minimum dry boiling point (ERBP) of 401 F, and mixes with all Dot 3 approved brake fluids. This fluid is designed for use in disc, drum and ABS brake systems.

Professional Series Dot 3 Brake Fluid meets or exceeds the requirements of the Federal Motor Vehicle Safety Standard (FMVSS) 116 DOT 3, SAE J1703 and ISO 4925.

Applications: FMVSS 116 Dot 3, SAE J1703 and ISO 4925
