

A unique formulation that restores coolant to its peak level of protection. It is designed for use in conventional, long life, hybrid, heavy duty and diesel coolants. It helps to promote more efficient heat transfer, restores critical additive balance, proper coolant pH, and provides protection against foaming and metallic corrosion.

FEATURES AND BENEFITS:

- Provides extra protection against corrosive wear of radiator and cooling system components
- Helps keep heat transfer surfaces free of deposits and scale
- Helps promote more efficient heat transfer
- Helps protect cooling system components
- Compatible with most types of Antifreeze
- Excellent for towing and racing applications

Directions: Add to the vehicle cooling system between cooling system services or after a cooling system fluid exchange service

SPECIFICATIONS:

Product No.: PS4303

Net Weight: 11 oz (325 mL)

Case Quantity: 24 each
