

Gear oils and lubricants can deteriorate over time as they are exposed to extreme heat and oxidization. This breakdown in lubrication can lead to expensive damage to differentials, manual transmissions and transfer cases. HP Lube Enhancer is designed to guard against the break down of gear oil. It is specially formulated with extreme pressure and anti-wear agents that safe-guard the components against pre-mature wear, extending the life of your driveline system.

FEATURES AND BENEFITS:

- Multi Purpose Performance Additive Extends Life of Components
- Quiets Gear & Bearing Noises
- GL-5 Standard for Differentials, Transfer Cases and Manual Transmissions
- Reduces Friction & Wear
- Prevents Corrosion

Directions: Add entire contents to differential, do not overfill.

SPECIFICATIONS:

Product No.: PS6501

Net Weight: 4oz (118 mL)

Case Quantity: 24 each
