

LS Lube Enhancer is designed to improve the heat transfer and thermal stability of gear oil, improving driveline component's performance and life. Our advance formula meets or exceeds the requirements of modern limited slip differentials while increasing reliability and performance. Optimized for increased thermal stability, our product eliminates limited slip chatter and improves driveline performance in normal and severe duty applications.

FEATURES AND BENEFITS:

- Enhances Limited Slip Performance
- Improves Thermal Stability
- Reduces Gear Box Temperature
- Helps Reduce Heat, Friction & Wear

Directions: Add entire contents to differential, do not overfill.

SPECIFICATIONS:

Product No.: PS6502

Net Weight: 4oz (118 mL)

Case Quantity: 24 each
